NEW YORK, August 26.—Georga W. Boston, August 26.—The Labor Re-Smilly telegraphs to the New York form State Convention, this morning, Tribune, from London: "I saw the appointed a State Central Committee, Harvard crew last night for the first of whom there were some ladies. time after a fortnight's absence, and was delighted to see the style and pace they both made to-day. The last row over the White course, which they will take before the race, a difference unquestionably better of the two. Their crew is heavier and their pace extraordinary. Harvard, however, is in su-

purb condition, and perfectly confi-dent. The rowing of the Amercan is far from faultless, but their boat goes along well, and their prospects are decidedly promising. It is not un-likely that the rate will be a very close one. The Harvard's men have determined to use the new boat built for them by Elliott, which carries them better and makes greater speed than any other they have tried. No trouble is feared, but every precau-tion has been taken against foul play, nd a strong guard is kept constantly over the boats. The Harvard crew has spent the two last nights at the Sturgess House. They wish me to contradict the English statement that they have adopted the English statement that they have adopted the English style of rowing. All the crew say they pull the same stroke as last year; but for all that, they show an immense change for the better. There seems to have for the better. There seems to have been a little trouble about the referee. Oxford wanted to change, but Harvard, I am glad to say, very properly sticks to Thomas H. Hughes. In consequence of this Mr. Chitty refuses meats, nothing doing. to get as umpire, and is not willing to serve under flughes.
